## About the Company

Wellings Ltd t/a Pink Skips was formed on April 1<sup>st</sup> 1998, and is known nationally throughout the waste and recycling industry. The company is privately owned and has a long successful history in this industry dating back over 40 years. The company has seen steady growth through the last decade. This growth, coupled with solid financial controls, has placed Pink in a strong position for further expansion.

The company is the largest family owned waste disposal company in the midlands and is well known for its ability to provide a complete, reliable and efficient waste management service that is appreciated by customers and admired by competitors. Currently employing in the region of 100 people and operate a fleet of approximately 50 vehicles this includes plant and machinery.

Pink Skips run two divisions Waste Collection and Waste Treatment and Disposal

The collection division operates transport, supplying equipment and services to waste producers. We pride ourselves on service with a modern fleet and fully trained operators all with mobile communication so our staff can control and manage the fleet at all times.

The present purpose built bulking, treatment and recycling facility was officially opened in February 2001, it was the first of it's kind to be opened in the Midlands. With a forward thinking attitude and investment program we are increasing our recycling targets year on year, currently diverting over 250,000 tonnes per year from landfill.

Pink Skips believe in recycling passionately, our commitment is to use the re-use, reduce and recycle scheme where economically and commercially viable. We are focused on providing solutions in Waste Management and Resources.

## Our Mission Statement

We will Endeavour to fulfill the triple aspirations of managing the company to the highest levels of customer service whilst maintaining environmental integrity and providing a safe and healthy workplace.

## Health and Safety

Organisation and Responsibilities

The company has assigned responsibilities for Health and Safety throughout the organisation.

The Managing Director is ultimately responsible for all Health and Safety matters and the operations manager is responsible for establishing the Health and Safety Policy

Implementation and operation of the Health and Safety Management systems is the responsibility of all managers, supervisors and other employees.

The company has appointed the Health and Safety manager as the competent person to assist the company and other managers in implementing the preventative and protective measures necessary and to ensure the compliance with the relevant legislation.

Health and Safety Manager: Ian Davie - IOSH  
Risk Assessment & Safe Operating Procedures

The Company assesses risk to Health and Safety of anyone affected by the Company's operations. The assessments are recorded and, where any significant risk is identified, appropriate action taken to

eliminate or reduce the risk where appropriate, written Safe Operating Procedures and Safe Systems of Work are provided to employees.

Individual Risk Assessments and Safe Operating Systems are available for inspection for specific operations, but due to the number involved it is impractical to provide further information in this document.

#### Training

It is the policy of the company that all employees are suitably trained to carry out the functions that they are assigned to perform safely and in compliance with all legal requirements. Certain mandatory training such as Induction Training and must be completed before any substantive work is undertaken

Training records are maintained for all employees, and these are reviewed at regular intervals to assess the need for further training. Full training matrix in place of all staff

## Construction Industry Sub Contractor Tax Scheme

### Statement

We confirm that the service provided by Pink Skips for the delivery / collection of skips, management of your waste and the supply of aggregates to the construction industry is specifically excluded from the above scheme.

Please refer to appendix B of the Inland Revenue booklet IR14/15 that quite clearly states that:

Transport of spoil from site

The transport of materials from site to site on the public highway

Delivery, repair or maintenance of construction plant or hire equipment without an operator, for example concrete mixers, pumps, and skips.

Is excluded from the scheme.

## Employment

At the time of publication, the company employed approximately 100 people, with majority being full time.

### Equal Opportunities Policy

It is the company's policy to treat all job applicants and employees in the same way. Regardless of their sex, sexual orientation, age, race, ethnic origin, disability, religion or gender reassignment. Further more, the company monitors the composition of the workforce and will introduce positive action if it appears that this policy is not fully effective.

### Training Policy

It is the company's policy to ensure that all employees are suitably and adequately trained to carry out the functions that they are employed to perform.
